

CALL TO DEMO

#NO HIV STIGMA

8. November 2019 at 16:00

www.nostigma.ch

Over the past three decades HIV science has made great progress, but public knowledge and attitudes have not kept up.

Too many people with HIV continue to experience stigma and discrimination based on their HIV status - the virus in the blood appears easier to eliminate than the stigma in the mind.

We need to make the public aware that all people have the same rights – regardless of HIV status, ethnicity, sexuality, whether we're sex workers or undocumented migrants.

The demo with the slogan '**NO HIV STIGMA**' will start at the Claramatte in Basel on Friday, November 8, 2019 at 16:00 CET.

Angelo Barrile (National Council SP), Beat Jans (National Council SP), Alex Schneider (organizer, HIV activist), Liliya Ten (HIV activist), Angela Lagler (HIV activist), Michele Meyer (HIV activist), Romy Mathys (HIV activist), Marcel Stöckle (physician and head of HIV department, Unispital Basel), Karoline Aebi-Popp (Gynecologist with a focus on HIV) will attending the demo as well as speaking about their experiences of living with, and tackling, HIV stigma.

After the speeches, the demo will transform into a protest and march through the city of Basel. The route runs from Claramatte through the Claragraben via Riehentorstrasse - Rebgasse - Theodorskirchplatz - Wettsteinstrasse - Wettsteinbrücke - St. Alban Graben - Bankverein - Steinenberg and finishing at Theaterplatz where the rally will continue until 18:00 CET.

Come and stand in solidarity with people living with HIV!
Let's say "NO STIGMA" and "NO DISCRIMINATION" together!
